ABOUT ME

Statistics and Computer Science student with hands-on experience in data analysis, machine learning, and software development. Skilled in predictive modeling, automated ML experimentation, and full-stack application development, with a focus on solving real-world problems through data-driven solutions.

EDUCATION

College of San Mateo | San Mateo, CA
2025-2027 (expected)

Associate of Science, Computer Science
Associate of Science, Mathematics

GPA: 3.84/4.00

Honors & Awards:
*Rosalie O'Mahony Math Scholarship (**$5,000**),*
Dean's List (3 Consecutive Terms)

Relevant Coursework:
Statistics, Calculus I–III, Foundations of Data Science, Data Structures, Programming Methods in Java

Myongji University | South Korea
2024 (On Leave)

Bachelor of Science,
Information & Communication Engineering

Relevant Coursework:
Python, C++, IoT, Calculus I&II, Linear Algebra

SKILLS

Programming:
Python, Java, MATLAB, JavaScript, TypeScript

Data Science & Machine Learning:
pandas, NumPy, scikit-learn, Matplotlib, Data Preprocessing, Predictive Modeling, Model Evaluation

Web Development:
React, Node.js, Express.js, REST APIs, Flask

Tools:
Salesforce, Excel, Git, GitHub, Jupyter Notebook, VS Code, Formstack, Render, Vercel

EXPERIENCE

International Affairs Student Assistant | May 2026 - Present

San Mateo County Community College District

- Analyzed **Salesforce admissions data using Python** to identify patterns in student citizenship and admission status.
- Audited and validated institutional records using **Salesforce and Excel** to improve data accuracy.
- Developed a **Formstack-based incident reporting system** to standardize documentation and response workflows.

Full-Stack Developer | Dec 2025 - Jan 2026

LUCE Model Agency

- Developed a full-stack web application using **React, TypeScript, Node.js, and Express.js.**
- Automated applicant processing, file uploads, and email notifications using Multer and Nodemailer.
- Integrated REST APIs and streamlined applicant data management workflows.

Student Support Manager | Mar 2025 - Jul 2025

Unisense English Academy

- Managed and analyzed student data for **60+ students** to support academic guidance and enrollment decisions.
- Achieved an **80%+ immediate enrollment rate** through personalized consultations and optimized workflows.

PROJECTS

Academic Performance Prediction Under Missing Data

Python, pandas, NumPy, scikit-learn, Matplotlib

- Developed **Linear Regression and Random Forest** models, achieving a baseline **R^2 of 0.850**.
- **Automated 750 ML evaluations** across missing-data scenarios and imputation methods to assess model robustness.

LearnIt AI – Personalized Study Planner (Cal Hacks 12.0 Hackathon)

Python, Flask, Groq API, HTML, CSS, JavaScript

- Developed an **AI-powered study planner** using **Groq API** to automate syllabus parsing and personalized quiz generation.
- Collaborated on and deployed a **full-stack prototype**, integrating front-end and back-end functionality.
